SKILLS

- Python
- Django
- FastAPI
- PostgreSQL
- Docker
- AWS
- Git
- REST APIs

EDUCATION

B.Tech — Computer Science
IIT Bombay | 2016 – 2020
CGPA: 8.7 / 10

CERTIFICATIONS

AWS Solutions Architect
Associate — 2022

Google Cloud Professional
Data Engineer — 2023

LANGUAGES

English — Fluent
Hindi — Native

Mumbai, Maharashtra, India

EXPERIENCE

Senior Software Engineer — Razorpay

Jun 2022 – Present | Mumbai

- Built payment gateway microservices handling 2M+ txns/day.
- Reduced API latency by 40% using Redis caching layer.
- Led team of 5 engineers for checkout flow redesign.
- See <https://razorpay.com/docs> for public API docs.

Software Engineer — Flipkart

Jul 2020 – May 2022 | Bangalore

- Developed inventory management system with Django + Celery.
- Optimised SQL queries reducing DB load by 30%.
- Wrote unit tests achieving 85% code coverage.

PROJECTS

SmartCV Parser

- Extracts structured data from CVs using PyMuPDF + NLP.
- Achieved 91% accuracy on 500+ CV benchmark dataset.
- Code: github.com/arjunmehta/smartcv-parser

RAG Chatbot

- Retrieval-augmented chatbot using LangChain + FAISS + OpenAI.
- Deployed on AWS Lambda with 99.9% uptime.
- Live demo: <https://ragbot.arjunmehta.dev>

Research: Efficient Transformers

- Published at ACL 2023 — sparse attention mechanisms.
- Paper: <https://arxiv.org/abs/2301.12345>

HACKATHONS

Smart India Hackathon 2021 — Winner

- Built an AI-powered crop disease detection system.
- Beat 300+ teams. Prize: INR 1,00,000.
